ES-551 INDUSTRIAL ISOLATED ETHERNET TO SERIAL

**ES-551**

- 1 Serial port, Multiple Electronic Interface
  - Software Selectable as RS232, RS422 or RS485 Full/Half Duplex
- Total Galvanic Isolation
- Max 1 MegaBaud, any Custom Baud Rate
- \(-40^\circ C\) to \(+80^\circ C\)/\(-40^\circ C\) to \(+176^\circ C\)
  Temperature range

---

**With Total Galvanic Isolation**

Prevent Electromagnetic Interference Problems

This device has 4 galvanically isolated power domains each with a minimum of 1,000 VDC isolation, ensuring data communications and power lines are protected from damaging electromagnetic interference.

There is no direct conducting path between the 4 isolated domains. Physically breaking the current path in this way offers the highest grade of protection possible preventing damaging high voltage transient surges that would effect devices downstream. Users and devices are protected from possible differences in ground potentials.
Ethernet to Serial

Serial Port selectable as RS-232/422/485

Easy to use Interface:
Great features for remote monitoring

Ethernet port

Extended Temperature Range:
-40°C to +80°C/-40ºC to +176ºC operating range copes with changing temperatures for harsh environments. Monitor CPU temperature via the web interface.

Brainboxes’ Easy Wire Feature:
Removable screw terminal blocks make installation easier and quicker
Colour coded blocks and ports prevents incorrect connection
Numbered Pins simplifies wiring and removes confusion

Integral DIN rail mount

+5V to +30V Power Supply

Slim Shape:
Small foot print for when DIN rail space is a premium
Only 22.6mm wide

Extended Temperature Range:
-40°C to +80°C/-40ºC to +176ºC operating range copes with changing temperatures for harsh environments. Monitor CPU temperature via the web interface.

Brainboxes’ Easy Wire Feature:
Removable screw terminal blocks make installation easier and quicker
Colour coded blocks and ports prevents incorrect connection
Numbered Pins simplifies wiring and removes confusion

Grounding:
Correctly wired grounds help cut down on electromagnetic interference
5 pin terminals allow a ground on the 5th pin of each block
Functional earth connection to the DIN rail

+44(0) 151 220 2500 sales@brainboxes.com www.brainboxes.com
Total Galvanic Isolation and Grounding:
The power supply, Serial port and Ethernet ports are all mutually isolated. Prevents electromagnetic interference problems, this is useful for applications in electromagnetically noisy environments such as processes involving power generators, motors, arc furnaces, induction heaters etc. Correctly wired grounds help cut down on electromagnetic interference. The 5 pin terminals allow a ground on the 5th pin of each block and a Functional earth connection to the DIN rail.

Redundant Dual Power Input:
A second power supply can be fitted as a back-up to prevent down time should one power source fail.

Wide Range Input Power Supply:
+5VDC to +30VDC accommodates variation in the +24VDC factory floor and allows alternative power sources.

Can use 5 Volt power from any computer USB port via optional accessory cable PW-650 - Useful for configuring the device from a laptop in the field.

Signed Drivers and Rigorous testing:
We use continuous automated testing of our in-house drivers and software to ensure when you install one of our devices ‘it just works’. Our software allows hassle free installation, configuration and monitoring via our easy to use webpage. The software gives local COM ports that are backwards compatible enabling legacy applications and the device to work with a myriad of different 3rd party software. We make all our software versions available to download from our website.

Lifetime Warranty and Support:
We can help with every aspect of your project, from getting you up and running to custom application.
ES-551 Factory Floor Application

Factory floors can be harsh environments. Extreme temperatures can be generated in the manufacturing process, machinery can be noisy and generate electromagnetic interference and space is a premium. But engineers still need to be able to access and maintain equipment safely and without downtime. As factories expand and modernise older equipment and remote devices need to be networked, but cabling can be expensive and impractical, especially over larger areas.

The ES-551 with total galvanic isolation has 1 serial port that is software selectable as either RS232, RS422 or RS485 and 1 Ethernet port. The ‘Easy Wire’ removable colour coded Screw Terminals Blocks are individually numbered for simple fast, error free wiring. The slim ‘end on’ case with integral mount clips straight on to a DIN Rail. The ES-551 has an operating temperature range of -40°C to +80°C and +5VDC to +30VDC Dual input reverse polarity protected power supply. Brainboxes proven technology supports legacy applications, whilst our Ethernet to Serial software ensures fast data transmission and a super easy installation whatever your operating system.

Once your Serial equipment is connected to a Brainboxes Ethernet to Serial device you have the option of accessing it over a local network or connecting it to the internet. The devices can be fitted in areas where it would be dangerous for workers to monitor whilst the factory line is in operation. Manufacturing process and performance across a large site can be monitored and potential faults detected before they cause serious downtime costs. The total galvanic isolation prevents problems from sources of electromagnetic interference. Use two devices back to back for serial tunnelling over Ethernet, for when you need to extend the reach of your serial cables.
**Ethernet to Serial**

**Housing**
IP-20 rated non-conducting polyamide case with integrated DIN rail mount

**Connectors**
- Screw Terminals: 3.5mm pitch, #22 - #14, 0.5mm²-2.5mm² pin power supply
- Wire Thickness: 0.150 inch, 3.81mm, 20 pins, 12+8 screw terminals, #26 - #16 AWG, 0.14mm²-1.3mm²

**Power Supply**
- Power Consumption: 2.5 Watt Max
- Power Supply input: unregulated +5V to +30Volts DC, reverse polarity protection
- Isolation: 1500VRMS Magnetic isolation from Ethernet

**Environmental**
- Operating Temperature: -40°C to +80°C, -40ºF to +176ºF
- Storage Temperature: -40°C to +85°C, -40ºF to +185ºF
- Ambient Relative Humidity: 5 to 95% (non-condensing)

**Port Settings - Software Selectable as RS232, RS422/485 Full Duplex, or RS485 Half Duplex**

| Baud Rate | Any custom Baud rate between 60 - 1,000,000 (1 MegaBaud) can be selected |
| Data Bits | 5, 6, 7 or 8 |
| Parity | Odd, Even, None, Mark or Space |
| Stop Bits | 1, 1.5 or 2 |
| Flow Control | RTS/CTS, DSR/DTR, XON/XOFF |
| Tx/Rx Modes | RS232 Standard: RS232 allows point to point communication between 2 devices. RS422 Standard: RS422 allows one transmitter with up to 10 receivers with data transmitter rates up to 10 megabits per second for distances up to 40 feet and up to 100 Kilobits per second for distances up to 4,000 feet (1219 metres). To achieve good long distance noise immunity, 2 wires are used to carry each signal, configured as a twisted pair of cables. The TXD and RXD pair are used to carry the data whilst the RTS and CTS pair lines are used for handshaking. Thus 2 twisted pairs are used without handshaking and 4 twisted pair cable is used with handshaking both these schemes allow full duplex data communications. RS485 Standard: RS485, based on the RS422 standard allows up to 32 driver/receivers pairs on a standard load or 128 low load devices per port can be connected. Whilst only one of these should be transmitting data at any time, the rest can all simultaneously listen to the data. Handshaking is performed by software protocol. Two twisted pairs form a full duplex system. Often only one twisted pair cable is used as the TXD and RXD lines are tied together; this is known as half duplex mode. Brainboxes RS422/485 products implement a state of the art hardware autogating circuit ensuring error free communications in half duplex configurations. Industrial Ethernet to Serial RS485: Receivers are 1/8th load allowing up to 256 nodes on the bus. Fail safe open circuit and short circuit protection, protects the Industrial Ethernet to Serial against wiring faults. Line Terminating Resistor: On board RS485 line termination resistor can be enabled by a user selectable jumper. The RS422/485 line terminating resistor prevents signal reflections when the ES device is at the end of transmission line. Bias Resistors: On board RS485 Half Duplex fail safe bias resistors enabled by user selectable jumpers. The fail safe biasing resistors pull the line to a known good state during idle times preventing phantom character detection. |

**Ethernet**

| Ethernet Port | 1 x RJ45 jack, 10/100Mhz autosensing, crossover auto sensing (Auto MDIX) |
| Protection | 1,500Volts magnetic isolation between I/O ports and network |
| Data Rate | 10/100 Mega bits/second |
| Cabling | Normal / AUTO MDI/MDIX and IEEE Auto crossover support IEEE802.1q VLAN support for up to 128 VLAN groups. Broadcast storm protection. IEEE 802.1d rapid spanning tree protocol RSTP support. |

**Software**

| Network Protocols | ICMP, IP, TCP, UDP, DHCP, BOOTP, Telnet, HTTP, RFC2217 |
| Connection to Network | Ethernet 10BaseT / 100BaseTX |
| Configuration Options | Windows Utility, Web Interface |

+44(0) 151 220 2500 sales@brainboxes.com www.brainboxes.com
Performance

    Industry leading Performance
    Throughput guaranteed minimum of 95% of theoretical bi-direction full duplex band width at 1 Mbaud

Input

    CTS False to Transmitter stop: 3 characters max, 1.5 typical
    XOFF received to Transmitter stop: 3 characters max, 1.5 typical
    RS485 Autogating Turn around time: <1 bit time

Isolation

    Power supply to Serial Port 2500V\text{RMS}, Power Supply to Ethernet 1500V\text{RMS}, Serial Port to Ethernet 2500V\text{RMS}

Browser Interface

    Webservice Interface
        Configure IP address, monitor state of I/O lines, set the Watchdog Timers Output Reset Value, Set Power on digital output value
    Programming Interface
        No device driver needed, just open a TCP connection and send simple ASCII commands.
        Software drivers give local COM Port interface for configuration
    Utility Programs
        Find device, configure IP address

Packaging Information

    Packaging
        Installation CD including manual, Microsoft signed drivers & utilities, Quick Start Guide
    Device
        Ethernet 8 DI + 8 DO
    Packaged Weight
        0.204 kg, 7.20 ounces
    Packaged Dims
        160x145x45 mm, 6.3x5.7x1.8 inches
    GTIN Universal Code
        837324002898

Approvals

    Industry Approvals
        CCC-Mark, C-Tick, Microsoft Certified Gold Partner, WEEE, RoHS, METL
    Microsoft Approvals
        AEO (C-TPAT)
    Microsoft Signed Drivers
        Windows 8 32 bit & 64 bit Editions
        Windows 7 32 bit & 64 bit Editions
        Windows Server 2008 32 bit & 64 bit Editions
        Windows Server 2008 & Windows 2000
        Windows Vista 32 bit & 64 bit editions

Product Support

    Warranty
        Lifetime - online registration required
    Support
        Lifetime Web, Email and Phone Support from fully qualified, friendly staff who work in and alongside the Product Development Team

Additional Information

    OEM option
        Available for bulk buy OEM
    Made In
        Manufactured in the UK by Brainboxes Winner 2005 European Electronics Industry Awards ‘Manufacturer of the Year’
    Customisable
        Brainboxes operate a ‘Perfect Fit Custom Design’ policy for volume users. More info: sales@brainboxes.com
